Thursday, 29 November 2012 15:43 - Last Updated Friday, 22 February 2013 12:25

Welcome to the Student and Early Career Scientists page! Please check here for updated information on activities that involve student and/or young scientists who have received their Ph.D. in the past five years.

Your [Student Organizing Committee](#) (StOC) is working hard to maximize your workshop experience, and we have many activities just for the newer members of our field. Students can keep in touch with us by joining our Facebook group for SDO Workshop 2013 Students: <http://www.facebook.com/groups/sdoworkshopstudents/>

All financial aid applicants should have received an email with their awarded support at this time. Please note, the deadline for accepting your financial aid is Friday, January 18th. Please follow the instructions in the email to claim your funding. If anyone who applied for financial aid has not yet received an email notification, please inform one of the StOC members ASAP!
